

## Two great evaporation offers from SLS:

- Buy a Rotavapor™ and Büchi vacuum pump bundle and **save up to £830** on the standard list prices
- Buy a Rotavapor™, Büchi vacuum pump and chiller bundle and **save up to £2,200** on the standard list prices

### Products available under these offers include:

- ✓ All R-215 and R-210 Rotavapors with the option of one of the following glassware sets:
  - A, V, C or S – coated and uncoated versions.
- ✓ Vacuum pump options include the V-700 or V-710 with or without secondary condenser
- ✓ Chillers available include the F-100, F-105, F-108 models which cover a range of chilling applications from maintaining temperature at a fixed 10°C to providing temperature control between 0°C and +20°C.

When buying a Büchi Rotavapor bundle, you are ensured of a rotary evaporator system that is reliable and safe. With the market leading Büchi R-215/210 series, the evaporation unit can communicate directly with the Büchi vacuum pump and chiller thus ensuring ease of operation with high levels of reliability and consistency in terms of performance.

**To find out more about these offers please contact your  
local Territory Sales Manager**

To see the full range of Büchi products available from SLS including encapsulators, spray dryers, hot extraction equipment and the full range of Kjeldhal digestion and distillation products, please visit [www.scientific-labs.co.uk/newproducts](http://www.scientific-labs.co.uk/newproducts)

**If you use Kjeldhal as a technique and need new instruments then SLS has a deal for you!**

**Choose from the following two bundles:**

### **1 Manual Operation Bundles:**

Ideal for laboratories processing up to 20 samples per day, **you can save up to £993** on standard list prices

Package includes:

- A Büchi K-425 Speed Digester with IR heating
