

BREAKING NEWS – AGREEMENT AWARDS

SLS are proud to announce our current success in being awarded 2 National, Public sector agreements.

Details of the agreements are as follows:

- 1) The Inter Regional Laboratory Agreement for Universities in England and Wales (IRLA)

SLS were awarded all of the 9 lots (including the 3 Analytical Chemical lots)

This agreement went live 1st August 2010 and covers all laboratory based Analytical and General Purpose Reagents and Solvents

- 2) Research Councils UK – Laboratory Chemicals (RCUK)

SLS were also awarded all of the 5 allocated lots

This agreement went live 1st September and also covers laboratory based Analytical and General Purpose Reagents, Solvents and Cleaning products

For the first time in our 19 year history SLS have been awarded the chemical elements of these agreements – which is fantastic news.

SLS's partnership and agreement with Sigma-Aldrich to distribute the FLUKA Analytical Chemical range into the public H.E. and RCUK Sectors proved to be a pivotal factor in making this success possible.
