

**SLS welcome new Territory Sales Manager Amar Rauf to the Northern Team**

Scientific Lab Supplies (SLS) announce the arrival of a new territory sales manager for the West Midlands. Amar Rauf joined the SLS Sales Team in early June 2010 and will take responsibility for supporting our West Midlands customers with immediate effect. Amar has a strong scientific background, having completed a bachelor's degree in Biology with Biomedicine and a Masters in Infection and Immunity at The University of Leeds. Prior to accepting the position at SLS, Amar worked at Sterilin Ltd as an Account Manager. Before this he took on a number of research posts at companies such as Conva Tech and Novartis.

Tina Naylor, Regional Sales Manager, says "We are pleased to welcome Amar to the team. He brings a lot of specialist knowledge and skills to the table. More than that, he puts customers first, which is a perfect fit for SLS"

Amar's experience, including research roles at Conva Tech and Novartis, combined with his familiarity of the market means customers can expect knowledgeable and empathetic advice.

Amar says "Having worked in laboratory sales for approximately two years now, I have experienced firsthand the way customers perceive SLS – this was one of the biggest attractions for me in joining the SLS team!"

Amar's specialist experience in Life Sciences is also fantastic news for SLS who continue to develop and expand this area of the business as they continue to grow their Flowgen life sciences brand.
