Amersham™ ECL™ Prime

The next generation reagent for Western blot detection

Still using ECL Plus? By changing to Amersham ECL Prime you will get:

- ✓ Higher sensitivity
- ✓ Better precision across a wide dynamic range of concentrations
- ✓ A more stable and intense signal

All this added performance, by doing absolutely nothing to your current protocol!

To Order

Code	Description	List Price
RPN2232	Amersham ECL Prime Western Blotting Detection Reagents for 1000cm ² membrane	£193.00

Associated Products for Quantitative Western Blotting

Code	Description	List Price
RPN303F	Hybond™-P PVDF Membrane 30cm x 3m	£227.00
RPN418	ECL™ Prime Blocking Reagent, 40g	£56.00
NA931-1ML	ECL™ Mouse IgG, HRP-Linked Whole Ab (from sheep), 1ml	£233.00
NA934-1ML	ECL™ Rabbit IgG, HRP-Linked Whole Ab (from donkey), 1ml	£233.00
RPN800E	Full-Range Rainbow Molecular weight markers 250µl	£141.00
RPN810	ECL™ DualVue Western Blotting Markers (25 loadings)	£167.00
3030-917	3MM CHR Blotting Paper 46 x 57cm	£170.00
