## Kühner Shaker with free tray and case of BD Erlenmeyer flasks

SLS, in conjunction with A. Kühner AG and Becton Dickinson, are pleased to offer a special promotion for all customers who place an order for a world renowned Kühner incubator shaker\*

### **Free Kühner universal tray (EU, FU or EXU) – up to £1,092 saving!!**

Supplied predrilled, these trays can be adapted to accommodate a variety of Erlenmeyer flasks or test tubes.

### **Free case of Becton Dickinson's new polycarbonate Erlenmeyer flasks.**

These new flasks are supplied with a leak proof 2 in 1 cap - can be used vented or none vented.

A. Kühner AG design and manufacture shakers renowned worldwide for their quality and reliability. From their base in Switzerland, they offer a range that covers all requirements from small bench top shakers /incubator shakers to large shaker cabinets with the following advantages:

- High loading capacity
- Stainless steel inner chamber
- Energy efficient direct drive motor
- Quiet and smooth running at high speed
- Three shaking diameters
- Optimised cooling / heating systems for low energy consumption
- **5 year warranty**

Market leading Becton Dickinson has just launched a new polycarbonate Erlenmeyer flask. Specifically developed for tissue culture/molecular biology applications, key features include:

- Flexibility – 2 in 1 cap that can be used vented or none vented
- Clear polycarbonate resin ensures uninhibited viewing of the sample
- Non-pyrogenic, non-cytotoxic and nuclease-free - meets USP class VI
- Ready to use, individually packaged and sterile to SAL 10<sup>-6</sup>
- Available with the option of flat or baffled bottom for increased agitation

**To benefit from this promotion, please contact your local SLS Territory Sales Manager to discuss your incubator shaker needs.**

\*Offer valid until 30th September 2010
