Xylem Ebro EBI 20 Temperature Loggers

With a memory capacity of 40,000 measurements the easy to use EBI 20 data loggers are suitable for the continuous documentation and monitoring of temperature. All EBI 20 data loggers are delivered with a factory calibration certificate and a user replaceable battery. The data loggers are particularly attractive because of their excellent price-performance ratio.

- Automatic recording of temperature data
- No network connection required
- Programming and evaluation with PC

- Waterproof
- LED alarm
- Min/max values on display
- Battery life approximately 1 year
