

ProCARE Hand Barrier Cream

- Non-greasy professional barrier hand cream that relieves and protects hands from chapping and irritation
- Specially formulated for long lasting protection, ideal for everyone who washes their hands frequently
- Combining lanolin to moisturise the skin and silicone to seal in that moisture, it absorbs rapidly for a non-greasy feel and instant protection
- Particularly effective in reducing the irritation caused by the constant wearing of rubber gloves
- Thick cream formulation can be used sparingly - a single tube will last several weeks

Code	Description	Pack	Price
CLE3000	Tube	12 x 85g	£87.00
CLE3002	Pump dispenser	4 x 450g	£91.00

Hibiscrub® Handscrub

- Contains 4% w/v chlorhexidine gluconate
- Effective against a wide range of microbes, including several strains of gram positive and gram negative bacteria, yeast, fungi and viruses, and reduces bacterial load more efficiently than povidone iodine
- Not absorbed into the skin, but binds to it to form a protective layer that kills bacteria within one minute, and continues to do so for up to six hours after application
- Not inactivated by bodily fluids
- Dermatologically tested and proven to be gentle on the skin, even with frequent use
- Repeated application has been shown to increase antimicrobial efficacy

Code	Pack	Price
HAE3212	12 x 500mL	£114.00
HAE3210	5L	£68.00

Klertide 70/30 Denatured Ethanol

ECOLAB®

- 70% denatured ethanol blended with deionised water
- Alcohol blend is 0.2µm filtered then filled and double bagged in a Grade C cleanroom before being terminally sterilised by gamma irradiation
