

Mettler Toledo pH Buffer Sachets

- High quality and reliable with maximum ease of use
- Sachets guarantees a fresh solution for every calibration
- Traceable to NIST primary standards
- Supplied with quality inspection certificate
- Accuracy: ± 0.02 pH

Supplied as 30 x 20mL sachets

Code	Alt Ref	pH	Price
PHM0144	51302069	4.01	£62.20
PHM0142	51302047	7.00	£61.50
PHM0146	51302070	9.21	£61.50

Hanna Buffer Sachets

- Handy single dose sachets hold just the right amount of solution
- Convenient, ready made pH values
- Accuracy: ± 0.01 pH @ 25°C
- Ideal for users who do not calibrate frequently
- Ideal for field use due to portability
- Every sachet is as fresh as the day it was packaged
- Light block packaging prevents oxidation from UV light that could alter the buffer value
- Prepared to NIST standards
- Supplied with certificate of analysis

Supplied as 25 x 20mL sachets

Code	Alt Ref	pH	Price
PHB1391	HI-70004C	4.01	£37.80
PHB1392	HI-70007C	7.01	£37.80
PHB1393	HI-70010C	10.01	£37.80

Hanna Calibration Solutions

- Convenient, ready made pH values
- Accuracy: ± 0.01 pH @ 25°C
- All solutions show a batch number, an expiry date, and the correlation table between pH and temperature
- Prepared to NIST standards
- Sealed with an air tight, tamper-proof seal to prevent any CO₂ from entering and causing a change in the pH buffer value

Supplied in packs of 500mL

Code	Alt Ref	pH	Price
PHB1402	HI-7004L	4.01	£26.00
PHB1404	HI-7007L	7.01	£26.00
PHB1408	HI-7010L	10.01	£26.00
