

Sartorius Minisart® NML Syringe Filters SARTURIUS

Minisart® NML with surfactant free cellulose acetate (SFCA) is the best choice for all aqueous solutions with a pH of 4 to 8. It combines fast flow rates with an exceptionally pure and leachable free membrane and is available in many different pore sizes.

- Optimised for aqueous filtration
- Wide pore size range from 0.2 to 5.0µm
- Available ethylene oxide or gamma sterilised
- CE mark of conformity
- Membrane diameter: 28mm

Code	Alt Ref	Pore Size, µm	Connector Outlet	Colour Code	Sterility	Pack	Price
FIL6574	16534K	0.2	Male luer lock	Blue	Ethylene oxide	50	£162.00
FIL6576	16534Q	0.2	Male luer lock	Blue	Non sterile	500	£851.00
FIL6578	16534GUK	0.2	Male luer lock	Blue	Gamma irradiation	50	£144.00
FIL6580	17597K	0.2	Male luer slip	Blue	Ethylene oxide	50	£144.00
FIL6582	17597Q	0.2	Male luer slip	Blue	Non sterile	500	£851.00
FIL6584	16555K	0.45	Male luer lock	Yellow	Ethylene oxide	50	£238.00
FIL6586	16555Q	0.45	Male luer lock	Yellow	Non sterile	500	£788.00
FIL6588	16555GUK	0.45	Male luer lock	Yellow	Gamma irradiation	50	£155.00
FIL6590	17598K	0.45	Male luer slip	Yellow	Ethylene oxide	50	£150.00
FIL6592	17598Q	0.45	Male luer slip	Yellow	Non sterile	500	£851.00
FIL6594	16592K	0.8	Male luer lock	Green	Ethylene oxide	50	£127.00
FIL6596	16592Q	0.8	Male luer lock	Green	Non sterile	500	£747.00
FIL6598	17593K	1.2	Male luer lock	Red	Ethylene oxide	50	£127.00
FIL6600	17593Q	1.2	Male luer lock	Red	Non sterile	500	£747.00
FIL6602	17594K	5	Male luer lock	Brown	Ethylene oxide	50	£144.00
FIL6604	17594Q	5	Male luer lock	Brown	Non sterile	500	£800.00

Sartorius Minisart® NML Plus Syringe Filters SARTORIUS

The glass fibre (GF) prefilter protects the membrane from early clogging and increases total throughput. The very low non specific binding characteristics of the surfactant free cellulose acetate (SFCA) membrane makes the filters a perfect choice for biomolecule solutions. The housing is made of the acrylic resin methacrylate butadiene styrene (MBS) which has a limited compatibility with alcohols but is free of phthalates. It is glueable, e.g. to tubing, which enables assembly and sterilisation by the user. GF and membrane in one filter housing decrease the hold up volume. If this is no limiting factor a GF only version is available and can be coupled with a membrane only syringe filter of choice.

- Supplied in a pouch in one pack to reduce waste
- GF only version for higher total throughout
- · Very low non specific binding
- PVC free
- Filter diameter: 28mm
