

## Simport® Scientific SlideTrays™

A convenient slide holder made of heavy-duty plastic which will last many years. It will hold up to 20 microscope slides in an almost horizontal position.

- Each slide can be easily removed and placed back in its position
- Easily stackable and will take minimum space
- Even when trays are stacked, slides are well protected and will not touch the tray above
- High impact polystyrene

## Simport® Scientific SlideFile™ Storage Systems

Slide storage system which includes a slide box available in five different colours to help in slide classification and to minimise the possibility of sample mix-up, and a removable tray. The tray is removable with 100 individual numbered slots. A tinted hinged cover makes the contents of the box easy to see at a glance. All slides are stored upright for easier insertion and removal. Simply tilt them forward and backward with one finger to easily and rapidly pick up the slide you need.

- Read bar codes without having to remove the slides from the box
- Double the amount of slides simply by storing two slides per slot
- Remove the tray and line up 400 slides in 3 rows for long term storage
- Base made of high impact polystyrene, cover made of polystyrene
- Dims, w x d x h: 82 x 245 x 86mm

Supplied in packs of 10
