Brady BMP®51 Label Printers

When you need clear, durable labels on the spot, you need the BMP®51. It offers crisp printing, easy formatting, convenient label sizes, and portability required for electrical and datacom installations, laboratory identification, facility and safety labelling. Extensive material knowledge combined with chemical expertise enables Brady to develop durable labels that perform throughout sample storage and processing.

- Hassle free drop-in cartridges have both the label material and ribbon inside
- Automatic label formatting - cartridges feature smart cell technology that tells the printer how to correctly format your label
- Quick to print at 25.40mm per second
- Use with the AC power supply, AA batteries or simply with the rechargeable Li-Ion battery which allows you to print over 3000 labels on a single charge
- Wireless capabilities - compatible with mobile apps
- Built-in Bluetooth® technology and the optional Wi-Fi card provide wireless printing options
- For continuous and die cut labels
- Monocolour
- Resolution: 300dpi
