E&O Laboratories Dehydrated Culture Media

An extensive range of dehydrated culture media (DCM) manufactured using highest quality ingredients source from premium suppliers around the world. Meticulously formulated broths, agars, buffers and diluents are available in powder format with full instructions for reconstitution and sterilisation. The DCM products can be stored at ambient temperatures and have a shelf life of 3 years. Associated supplements required to produce specific media types are available in lyophilised format (see the SLS website for details).

Supplied in tubs of 500g (MED1500 is 400g)
