Sartorius SafetySpace® Filter Tips

SARTORIUS

SafetySpace® filter tips produce repeatable results with Sartorius pipettes and eliminate the risk of your sample ever touching the filter. The unique SafetySpace® between the sample and the filter enables you to use the full volume of the tip with any pipetting mode.

- Made of virgin polypropylene (tip) and polyethylene (filter)
- Filter barrier helps protect against cross-contamination of the sample and/or the pipette and reduces the need for pipette maintenance
- Packed in color coded single tray racks protected by an airtight wrapping
- DNase, RNase, human DNA and endotoxin free certified
- Pre-sterilised

Single tray packages, wrapped in air-tight plastic
