

Heathrow Scientific Low Temperature PCR Storage Racks

- Rack slides out from the lid, and then rotates 180°, to become a convenient stand the rack sits on
- Ergonomic textured finger grips provide a secure hold
- Lid has a side opening that enables faster cooling of samples to ensure integrity and is made from translucent polycarbonate
- A location ID of numbers and letters allows for organised sample placement
- Compact, stackable footprint saves space
- Holds 96 x 0.2mL tubes (individual or strip) in an 8 x 12 array
- Can be used for freezer storage down to -80°C
- Detachable, ambidextrous lid can be switched to accommodate left or right hand orientation
- Not recommended for autoclaving
- Dims, w x l x h: 92 x 125 x 37mm

Supplied in packs of 5

Code	Alt Ref	Colour	Price
