

MAUSER® Wiva Containers

C10-1

- Fit for use in various medical environments, also for hygienic autoclaving and incineration processes
- Available in three sizes: 30, 50 and 60L
- Failure-proof locking system
- Supplied with solid lids
- UN approved for class 6.2 infectious waste, UN 3291

Code	Volume, L	Dims, w x d x h, mm	Weight, g
SAF7360	30	335 x 400 x 318	1,360
SAF7362	50	335 x 404 x 539	1,650
SAF7364	60	335 x 400 x 640	1,900

Bio-Bin® Clinical Waste Bins

C10-1

econix

Bio-bin® is a new concept for non sharp infectious waste disposal. Designed to reduce your costs and CO₂ emissions when disposing of infectious and other waste materials, the paper base construction significantly reduces the amount of plastic and weight that is sent for final waste.

- Fold flat design saves storage space
- Reduced cost when compared to plastic bins
- Designs reflect DOH waste segregation guidelines
- 30L now available with a "twist and lock" temporary seal
- UN3291 approved container, no additional packaging required for transport

Code	Description	Pack
