

CORNING

3D Cell Culture Workflow Solutions

Spheroids, Organoids, 3D Structures

SEED

- Corning Cell Counter
- Corning Matribot Bioprinter
- Heating and cooling solutions
- Wide-bore tips, pipettors
- Pipets, pipet controllers
- Media
- Buffers
- Corning Matrigel matrix and other ECMs
- Corning ITS Premix

EXPAND

- Corning Matrigel matrix
- Media
- Collagen and Laminin
- Corning Elplasia 12K flask
- Corning Elplasia plates
- Spheroid microplates
- Ultra-Low Attachment surface microplates
- Transwell permeable supports
- Corning CellSTACK 1-chamber vessel
- Spinner flasks

HARVEST

- Centrifuge tubes
- Serological pipets
- Axygen wide-bore tips
- Cell harvesting solutions, Dispase
- Cell strainers

ASSAY

- Falcon and Transwell permeable supports
- Spheroid microplates
- Ultra-Low Attachment surface microplates
- PCR microplates
- ECMs, peptide hydrogels, etc.
- 3D Clear tissue clearing reagents

STORE

- Cryogenic vials and accessories
- Corning CoolCell products
- Storage blocks, sealing films, mats
