SLS Raises £750 for Macmillan Cancer Care at COUP 2015

Scientific Laboratory Supplies are delighted to announce a total of £750 raised after a phenomenal response to their Macmillan Cancer Care 'Roulette table' at COUP (Conference on University Purchasing) 2015.

Visitors attending the stand could take part in a game of charity roulette. This entailed each person receiving £5 in chips to play with and 5 spins to maximise their winnings. Whatever they won in their time at the stand went to Macmillan Cancer Care charity. Visitors flocked to the stand to try their luck for a great cause and thoroughly enjoyed the novel idea of charity roulette.

Ian Roulstone, Sales Director for SLS commented "This is the first time we have tried anything like this, but it certainly won't be the last. Not only did it give us chance to speak to visitors to COUP, but it also gave them the opportunity to get to know SLS whilst raising money for such a worthwhile cause."

University of Manchester Procurement tweeted "Congratulations to @Scientificlabs who raised £750 for Macmillan Cancer Care".
