## FOCUS Autumn 2022 Edition

Welcome to another fantastic issue of FOCUS! Packed with exclusive offers on laboratory products from market leading brands. We also have some exciting NEW products in this edition, including the Bruker ALPHA II Series Compact FT-IR Spectrometers and the Haier Biomedical -150°C Cryo Chest Freezer. Speak to your local account manager to find out how these products can change your lab life for the better!

In addition to this issue, visit our website for supplementary 'FOCUS Extra' online offers, for even more great savings on many other fantastic products.

### REMEMBER:

These offers are  
**EXCLUSIVE** to SLS  
and valid until  
**31<sup>st</sup> Dec 2022**

### Do you have a copy of our NEW SLS Catalogue 2022?

Our brand new catalogue has over 15,500 products all in one place - over 1,500 of which are completely new! Whatever your application, you're sure to find the product to suit your needs.

Request your copy at [scientificlabs.co.uk/literature](https://scientificlabs.co.uk/literature).

We, just like our customers, are passionate about providing sustainable laboratory solutions, including our catalogue production. All our hard copy promotional material is produced on FSC® certified and carbon offset paper, ensuring our activity doesn't negatively impact the environment. We also offset the production by partnering with One Tree Planted.

## Eppendorf Research Plus Move It® Multi-Channel Pipettes with Adjustable Tip Spacing

3  
YEARS

eppendorf

The new adjustable tip spacing pipette Move It® accelerates and simplifies synchronous pipetting of a series of samples. A unique design without tubing connections results in increased precision and durability as well as user and sample safety.

- Efficient sample transfers from one vessel type to another.
- Pre-defined settings allow for quick switches back and forth between different formats
- Time-saving thanks to rotatable pipette head – 360°
- Tubeless system for reliability and reproducible results- no cable tangle and tubing-porosity, for consistently reliable robustness and precision

## Eppendorf Mastercycler® X50 PCR Thermal Cyclers

2  
YEARS

eppendorf

Elegantly combines speed, flexibility, and ease of use. With its intuitive touch screen offering precise fingertip control, the X50 PCR thermocycler enables easy PCR optimisation in advanced molecular biology research and dependable standardisation in routine PCR applications.

- Up to 10 units can be networked
- Up to 50 units can be combined with the CycleManager X50 software
- Wide selection of blocks
- flexlid® concept: automatic height adjustment of the lid allows you to use all types of consumables
- Gradient range: 30 to 99°C

## Eppendorf ThermoMixer® C

2  
YEARS

eppendorf

Combines excellent mixing performance and temperature control to guarantee complete, dependable and reproducible test results.

- All common vessels and plate formats from 5µL to 50mL by using different SmartBlocks™
- <sup>20</sup>Mix-Control technology results in excellent sample mixing
- Anti-spill technology prevents lid wetting and cross-contamination
- Mixing frequency from 300 to 3000 RPM
- Predefined program keys and clearly arranged menu guides for simple and intuitive operation
- Temperature range: 15°C below RT to 100°C (depending on SmartBlock™ used)
- 15s to 99.3h or continuous time

# Made for Your Workflows

**High-Speed Centrifuge CR22N: Your everyday solution supporting you in every step**

From academic institutions to large pharmaceutical companies, separating samples with varying volumes can be a real challenge.

Get more out of your routine with the new CR22N high-speed floor-standing centrifuge. With a speed of up to 58,700 x g and comprehensive rotors, it is perfectly suited to support you.

Discover more of the Eppendorf range at [www.scientificlabs.co.uk](http://www.scientificlabs.co.uk)

Whether your work requires harvesting of biomass in volumes of up to 6 L per run, pelleting of cells, subcellular organelles or larger viruses, or extraction, precipitation, concentration and purification of nucleic acids in up to 50 mL tubes, the Centrifuge CR22N is the optimal solution to support your everyday centrifugation tasks.

Discover all our modular bundles we have on stock:

## Bimos Neon 2 Chair

Neon is ideally equipped for industrial or laboratory use. It can be adjusted in every possible way to cater for different body sizes and weights, and the most varied activities. The seat automatically encourages the correct posture and upright, healthy sitting. Ergonomically designed with integrated pelvic support and rounded front edge of the seat. The upholstery element and the chair element are both individually configurable.

- With castors and aluminium base
- Synchronous mechanism
- Changeable upholstery elements
- Weight adjustment
- Seat depth adjustment
- Adjustable seat inclination and backrest adjustable in height

Code	Seat Height, mm	Upholstery Material	Colour	Offer Price, £
<b>F18002</b>	450 - 620	Artificial leather	Orange	<b>445.00</b>

## Bimos Labsit Chairs and Stools

Labsit meets all requirements of a laboratory chair with its hygienic design. It is easy to clean, has minimal joints, is resistant to disinfectants and solvents, has anti-bacterial and anti-microbial properties and is even suitable for use in cleanrooms and safety laboratories.

- Suitable for cleanrooms in air purity class 3, acc. to EN ISO 14644-1
- Meets the specifications of the GMP regulations
- Washable, resistant to disinfectants and robust
- Ergonomic construction
- Compact structure to save space
- Comfortable and wear resistant
- Seat height adjustable with gas spring

## Thermo Scientific™ ART™ Pipette Tips

**Thermo**  
SCIENTIFIC

Thermo Scientific's Aerosol Resistant Tip (ART™) is a self-sealing filter tip that protects pipettors from crossover contamination.

- Self sealing barrier traps contaminating aerosols and liquids
- Low retention
- Reload System reduces plastic used
- Sterile
- Certified RNase, DNase and pyrogen free

## Gilson PIPETMAN® L Manual Pipettes

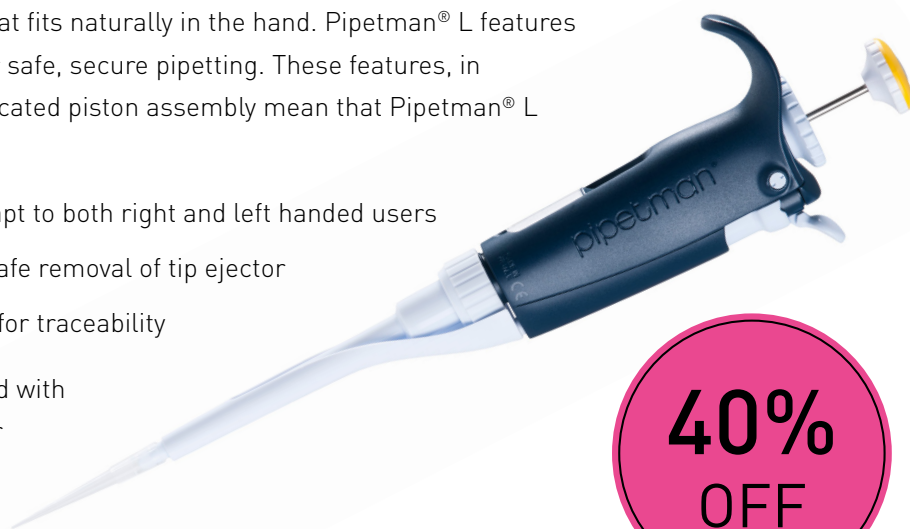

3  
YEARS

GILSON

A lightweight pipette with a handle that fits naturally in the hand. Pipetman® L features a patented volume locking system for safe, secure pipetting. These features, in combination with Gilson's latest lubricated piston assembly mean that Pipetman® L offers very light pipetting forces.

- Adjustable tip ejector button to adapt to both right and left handed users
- Clip mechanism allows easy and safe removal of tip ejector
- GLP features include 2-D barcode for traceability

VR multichannel models are equipped with v-rings at the bottom of the tip holder for a proper fit with most tip brands.

## Gilson TRACKMAN® PIPETMAN® M Connected Pipette Starter Kits

1  
YEAR

GILSON

The PIPETMAN® M Connected Bluetooth enabled electronic pipette offers accuracy and precision in both standard and repetitive pipetting modes. Connect the pipette to the Gilson PipetteScope™ app to know exactly when the pipette needs to be calibrated, access service history reports and gain visibility of the pipette usage analytics.

With the PIPETMAN® M Connected software, create custom protocol. Used together with TRACKMAN® Connected tablet, the pipette interacts in real time with device to plan, execute and track pipetting protocols.

- Motorised piston allows for high pipetting reproducibility and accuracy
- Requiring virtually no pipetting forces to aspirate and dispense samples
- Helps reduce pipetting fatigue and increase pipetting efficiency

## Motic BA310 Elite Binocular Microscope with Moticam 1080 INT Camera

2 YEARS

**Motic®**

Using Motic's Colour Corrected Infinity Optics (CCIS®) with EC Plan Achromats, this model's full Koehler configuration provides maximum illumination quality. Featuring a rackless stage, with an extended travel range of 80 x 55mm and a specimen holder that allows a large throughput of samples. Lighting options are easily interchangeable between a Halogen bulb and LED modules of different colour temperatures.

- Binocular head Siedentopf, 30° inclined, 360° swivelling, 360° rotating
- Widefield high eye point eyepieces N-WF10X/20mm with diopter adjustment on both eyepieces
- Reversed quintuple revolving nosepiece
- CCIS EF-N Plan Achromatic objectives EC PL 4X, 10X, 40X S, 100X S-oil
- Coaxial coarse and fine focusing system with tension adjustment
- Focusable Abbe condenser N.A. 0.90/1.25 with iris diaphragm and slot
- 3W LED illumination with intensity control

## Tecan Infinite M Nano+ Monochromator

TECAN.

Dual-mode plate reader with monochromator-based optics for absorbance and sensitive fluorescence (top and bottom reading) applications. The Infinite M Nano+ has an excitation monochromator optimised for wavelength accuracy and precision, ensuring excellent performance for every absorbance and fluorescence assay.

- Automated pathlength correction
- Absorbance cuvette port, NanoQuant plate

Unavailable in Northern Ireland

Code	Temp Range, °C	Absorbance Range, nm	Fluorescence Range, nm	List Price, £	Offer Price, £

## Accuris SmartReader UV-Vis Microplate Absorbance Reader

Benchmark Scientific

The Accuris SmartReader™ UV-Vis microplate reader has been designed with ease-of-use and fast results in mind. The large 10 inch touch screen control panel is extremely user-friendly and allows for fast set up of new protocols, and modifying or running existing protocols. The monochromator-based optical system allows for precise selection of wavelengths with no filters required.

- Accepts both 96 and 384 well plates
- No PC or special software required
- USB port for flash drive data transfer

Code	Temp Range, °C	Wavelength Range, nm	List Price, £	Offer Price, £
F18012	5 to 45	200 to 1000	15213.00	13121.00

## SLS Flowgen Plate Spinner

2  
YEARS

Rapidly spin down droplets in PCR or microplates to improve PCR yields or give more consistent assay results. The swing out rotor has two plate carriers that rest at a 75° angle. This allows plates to be inserted confidently without sealing tapes or caps. Most samples can be spun down in less than 20 seconds.

- Unique swing-out rotor design prevents spillage
- Accepts most types of PCR plates
- Capacity: 2 x PCR plates (when stacking skirted PCR plates, max. capacity is 4 plates);  
2 x microplates

50%  
OFF

## Meridian Bioscience Proteinase K

meridian BIOSCIENCE™  
A LIFE SCIENCES APPLICATIONS COMPANY

A highly active serine protease with broad cleavage specificity on native and denatured proteins. Proteinase K is widely used in the purification of native RNA and DNA from tissues or cell lines, as well as for many other applications.

- High activity - broad-spectrum serine protease
- Active under denaturing conditions - useful for a variety of applications
- Stable at high temperatures
- Molecular biology grade - useful for general digestion of proteins

CORNING

## Break the 3D Barrier

Get there fast with Corning.

Are you just getting started in 3D cell culture? Looking for proven ways to scale up? Or making the move to high throughput screening? Whatever your challenge, Corning can help you break through the barriers to create more *in vivo*-like environments and predictive models. For more than 25 years, Corning has delivered innovations that have advanced the science of 3D cell culture. We pioneered the development of novel tools providing easier access to *in vivo*-like 3D models, such as **Corning® spheroid microplates**, **Corning Matrigel® matrix** and **Transwell® permeable supports**, and we continue to support you with a diverse and evolving portfolio of innovative 3D cell culture products, solutions, protocols, and expertise. Corning is committed to working with you in critical areas such as cancer biology, tissue engineering, and regenerative medicine – to help you bring safe, effective drugs and therapies to market in less time with greater certainty. Find out how Corning can help you conduct more biologically relevant research and better predict how your next discovery will behave in the real world.

## SLS Lab Basics Mini Vortex Mixer

5  
YEARS

SLS LAB  
BASICS

A simple, touch start operation enables exceptional mixing performance with one handed operation, and shaking stops when the tube is lifted.

- Non-slip feet ensure the unit stays in place
- Made from durable ABS and silicone materials to resist most commonly used chemicals
- Quiet operation with low vibration, noise level (full speed, unloaded): 53dB
- Can be used with tubes ranging from 2 to 50mL
- Supplied with replacement silicone cap and universal power adapter

50%  
OFF

## Precellys Evolution Homogeniser with Cryolys Evolution Cooling Unit

1  
YEAR

**bertin**  
instruments

Precellys Evolution is the universal tissue homogeniser combining high flexibility and high efficiency for either routine or R&D projects. Can process five different sizes of tubes (0.3mL in well-plate format, 0.5, 2, 7 and 15mL) and up to 24 tubes simultaneously. The comprehensive range of 30+ lysing kits makes it suitable for any type of sample preparation. Its flexibility and high efficiency give users the ability to grind, homogenise and lyse any type of soft or hard sample from animal, human, plant or microorganism sources in seconds.

Combined with Cryolys Evolution, the only patented integrated cooling unit, Precellys Evolution offers a complete control of the temperature during samples grinding to prevent DNA, RNA & protein degradation of thermosensitive molecules.

- Automatic tubes locking system – patented
- The software allows users to save an unlimited number of protocols
- Up to 10 x 90 second cycles (incremental by 1 sec)

## SLS Select Biocleanse Disinfectant

Low-residue, alcohol-free SLS Select Biocleanse disinfectant offers a convenient, effective, powerful all-in-one cleaning and disinfecting solution for a broad range of surfaces, including PMMA and aluminium.

- Wide spectrum microbiocide
- pH neutral
- Alcohol-free
- Effective against all enveloped viruses e.g. HIV, HBV, HCV, coronaviruses
- Wipe size: 200 x 190mm
- 200 wipes per tub or refill pouch

## Bruker ALPHA II Series Compact FT-IR Spectrometers

1 YEAR NEW

The ALPHA II is a compact FT-IR spectrometer with a footprint the size of a laptop. It is used for chemical analysis and enables you to do quality control, quantifications and verification of raw materials.

- Analyse any sample type
- Save space in your laboratory
- Enjoy maintenance free operation
- Apply it in any work environment
- Train new users in a few minutes
- Be well prepared for new tasks
- Low energy consumption

Unavailable in Northern Ireland

## Jenway Genova Bio Life Science Spectrophotometer UV/Visible

2 YEARS

Jenway®

The multi-element detectors on these scanning spectrophotometers measures the entire wavelength range at once, reducing wait times. Measurement modes include photometrics, concentration, optical density (O.D. at 600nm), quantitation, spectrum scanning, and kinetics.

- Diode array technology speeds up spectral data acquisition
- Simultaneous measurement of all wavelengths increases productivity, scan time as short as 3 seconds
- Color touch screen and user-friendly interface make setup easy
- Preprogrammed for DNA, RNA and protein analysis
- Supplied with micro-cuvette holder, USB memory stick, and power adapter

## Thermo Scientific™ Orion Star™ A215 pH/Conductivity Benchtop Meter Kit

3  
YEARS

Thermo  
SCIENTIFIC

Record accurate and reliable pH, mV, ORP, conductivity, total dissolved solids (TDS), salinity, resistivity and temperature measurements. Use the two meter channels to measure pH and conductivity simultaneously or view each channel separately. Perform up to a 5 point calibration, log up to 2000 data point sets with time/date stamp and easily transfer calibration and data logs via USB or RS232 with Orion Star™ Com software to a printer or computer.

- Calibration log stores ten most recent calibrations
- Non-volatile memory protects data and settings, even with loss of power
- IP54-rated housing can handle splashes
- Supplied with electrode stand and universal power adapter

## Lovibond SensoDirect 110 Series Meters

SensoDirect 110 series meters can be used to measure pH, salt and conductivity. "Hold" function included, data is virtually frozen on the display by this function making it easier to read the results and improve reproducibility. Automatic battery check, the level is constantly monitored. The stand attached to the back of the housing can be used as a hanger or belt clip.

- High measuring accuracy
- Light weight
- Protective casing
- Large digital display

## Benchmark IsoPure Mini Automated Purification System

The IsoPure Mini is a compact, automated purification system that improves efficiency and reproducibility using the magnetic bead-based method. Mixing, magnetic bead transfer, washing, and elution steps are performed automatically, saving valuable hands-on time. The purification process can be completed within 10 to 60 minutes depending on the type of reagent kit used and the complexity of the program.

- Fast, reliable and reproducible results
- Compatible with all popular magnetic bead kits
- Process up to 16 samples
- Android app and PC software for programming
- Sample volume 50µL - 1000µL

## SLS Lab Pro PURA-Q+ Type 1 and 2 Water Purification

Combines ultrapure and DI water in one unit saving you money and space. Type 2 water is ideal for buffer, reagent & media preparation, sample dilution and general chemistry. Type 1, dispensed direct from the unit or using an optional remote dispenser, is perfect for the most sensitive applications such as cell & tissue culture, molecular biology, electrophoresis, chromatography & spectroscopy.

- Intuitive, icon-based, interactive user interface with touchscreen
- Up to 2L/min ultrapure water with volumetric dispense
- Variable make up rate up to 25L/hr
- Mount on-bench, under-bench or on the wall
- Continuous TOC monitoring
- Low endotoxin, RNase, DNase and protease options available

## Ecodyst EcoChyll X1 Condenser

ecodyst

Takes the place of standard water, ice, dry ice, or antifreeze dependent glass condensers. It reaches stable sub-freezing temperatures in seconds! EcoChyll's patented refrigerated condenser sets a new standard for cooling samples and processes – all without the use of traditional coolants. The EcoChyll is easy to use, saves time, energy and money.

- Replace conventional coolant dependent condensers
- Reach -20°C in under two minutes
- Tankless design – no antifreeze, dry ice, or water needed
- -40 to -5°C temperature range with  $\pm 2^\circ$  stability
- No associated operational expenses
- Eco-friendly energy efficiency
- Includes condenser glass body, 1000mL round bottom flask, 1000mL receiving flask, adapter, clamp and tubing
- Compatible with any rotary evaporator

## Getinge Lancer Ultima 815LX Laboratory Washer Packages

GETINGE ✱

Getinge Lancer Ultima laboratory washer model 815LX is a compact undercounter washer with a superior cleaning and further enhanced optional drying system with efficient throughput for labware. The amplified performance of the drying system delivers a high throughput that safeguards your research. The undercounter washer model 815LX offers optimal cleaning performance with high-density loading ensuring efficient use of water, detergents, and energy for sustainable performance.

- A superior capacity-to-space ratio for efficient use of space
- High performance drying systems, ensuring that even the most difficult load is dry at the end of the wash cycle
- One touch simplicity through colour touch screen and graphical interface
- Balanced water circulation system that ensures optimal cleaning with low water and energy consumption

Supplied with chemical starter pack. Includes installation and basic commissioning, and first year service contract.\*

**Delivery not included. \*Installation/comissioning and service contract excludes Northern Ireland.**

## THERMAL WASTEWATER STERILISATION

### The AstellBio Sink

Liquids washed down the sink are sterilised with heat before being despatched to the drain

### The AstellBio Micro EDS

A plumb-in effluent decontamination system which automatically sterilises wastewater using heat

### The AstellBio Sink & Autoclave Combo

The perfect sterilisation station for autoclaveable materials and liquid waste

AstellBio manufacture thermal effluent decontamination systems (EDS) for sterilising up to 6300L per day.

## LMS Drosophila Modified Incubators

LMS incubators offer reliable and accurate temperature control operating between -10°C to +50°C. The energy efficient cooling/heating system coupled with the use of LED lighting results in low running costs whilst maintaining temperature accuracy. Fitted with fan-assisted circulation, and featuring a range of modifications to make them suitable for drosophila studies.

- Programmable controller – allows the user to time both the temperature and lighting
- Programmable LED Lighting – using the programmable controller you can program the lights to turn on or off in line with the temperature/s, thereby creating a day / night cycle
- Independent adjustable high / low alarm
- Fruit fly upgrade – modification to the internal refrigeration system that protect it from the acid vapours produced by the flies

		<b>big, adaptable autoclaves</b> maximise your sterilisation space with any option you need 125 to 1400 Litres of chamber space	<ul style="list-style-type: none"> <li>• Manual Door Square Chamber Cross-Section Autoclaves</li> <li>• Automatic Door Square Chamber Cross-Section Autoclaves</li> </ul>

## LTE Touchclave-V Autoclaves

NEW

LTE's Touchclave Lab V series is their most economic range of floor standing autoclaves, suitable for processing most laboratory loads. All models have a cylindrical chamber and are loaded vertically. Uses submerged heaters within the chamber to generate steam and are fitted with a safety thermostat which will disable the heating element if there is insufficient water in the chamber. All models have a steam discharge and drainage outlet as standard for ease of use.

### Touchclave-V model

- Touch button interface and simple display
- Manual setting of temperature (115°C - 134°C) and sterilisation time (3 - 99 mins)

### Touchclave-V+ model

- Touchscreen control panel
- Allows users to pre-set up to 10 programs for different processes
- USB slot fitted as standard allowing users to extract cycle data

### Touchclave-V+ Dry

- Both a USB port and touchscreen controls
- 9 pre-programmed common cycles set in its memory which are fully amendable for flexibility
- Water inlet point, eradicating the need for manual filling
- Built-in vacuum allowing for the sterilisation of more load types and to speed up cycle times

## Haier Biomedical –150°C Cryo Chest Freezer

Haier Biomedical  
Intelligent Protection of Life Science

With a storage environment about 20°C colder than the water recrystallisation temperature, it is suitable for storage of a varieties of biological samples and testing materials.

- 10" LCD touchscreen display with temperature accuracy of 0.1°C
- Environmentally friendly HC refrigerant
- Energy saving dual-compressors 4-stage cascade refrigeration system
- Wide cabinet opening design, outer door multi-layer sealing, standard with two inner doors, to prevent the loss of cold
- Audible and visual alarms: user programmable high and low temperature alarm set points, power failure, sensor error, door ajar, extreme voltage, hot condenser, and extremely high ambient

Unavailable in Northern Ireland

## SLS Lab Pro Statebourne Cryostor LN<sub>2</sub> Storage Dewar

Equipped with a safety dispensing head incorporating fill, vent and dispense valves, safety reliefs, pressure gauge and an integral pressure build vaporiser with automatic pressure regulation. Stainless steel construction to safely withstand the harshest working environments while offering low evaporative losses.

- Electronic level gauge for accurate reading of contents at the push of a button
- Heavy duty castor wheels and pull along tow bar handle
- Normal operating pressure 1.5 bar
- Maximum operating pressure 3 bar
- Includes a 1/2" 1.5m hose, phase separator and an extended 7 year warranty
