Scientific Lab Supplies Launches New Life Sciences Catalogue at Lab Innovations

The UK's largest independent supplier of laboratory products will be attending Lab Innovations this year where they will be launching their new Life Sciences Catalogue.

Visitors will be able to get their first glimpse of the brand new SLS Life Science Catalogue when they visit stand G20. This edition is double the size of its predecessor and covers areas such as Cell Culture and Imaging, Bioprocessing, Electrophoresis, PCR, Sample preparation and purification, Transfection and Antibodies.

With products from leading names such as Lonza, Thermo Scientific, Corning, GE Healthcare, Falcon, Roche, Eppendorf plus many more – this is the 'go to' catalogue for Life Scientists.

SLS will be showcasing products from the catalogue and will be joined by some of their key supply partners: Scilabware, Kimberly Clark, Eppendorf, Integra and Nebulair. Visitors are encouraged to visit both the SLS and Eppendorf stands to receive a high quality free gift.

Josh Chapman, Marketing Director for SLS, commented "We are very proud of our new Life Science Catalogue and believe we are providing our customers with the brand names they are used to and some refreshing, cost effective alternatives to the usual suspects"
