

Best VOYAGER II Offer Ever!

Trade-In any INTEGRA VOYAGER I,
Rainin or Thermo Fisher
adjustable tip spacing pipette
and save on a VOYAGER II!

Expires September 30, 2017

VOYAGER II
is the only fully
automatic one handed
adjustable tip spacing
pipette!

- Save hours of pipetting! VOYAGER II pipettes feature motorized tip spacing, enabling parallel transfer of multiple samples between labware of different sizes and formats.
- Tip spacing can be changed by the simple push of a button; no manual adjustments or two handed operations are needed. This both boosts productivity and reduces the risk of repetitive strain injuries (RSI).
- The VOYAGER II adjustable tip spacing pipettes are available in 4, 6, 8, and 12 channel versions and expand anywhere from 4.5 mm to 33 mm. This provides access to a wide range of labware formats such as microplates, tubes or gels.
- VOYAGER II pipettes have been redesigned to feature a lower end that swivels for even better access to a variety of labware.

Part No.	VOYAGER II Electronic Pipettes	List Price	Trade-In Price
I4743	4-channel VOYAGER II, 10 - 300 μ l	£ 1576	£ 995
