SLS Helps Raise Money for Cancer Research

Friday 26th February 2016 saw SLS fundraising for the 1in2 Day in support of the John Van Geest Cancer Research Centre and Nottingham Trent University.

The annual 1in2 Day helps to raise funds for the lifesaving work carried out by Nottingham Trent University and the John Van Geest Centre. The day is named in recognition of the statistic that at least 1in2 of us are now predicted to be diagnosed with cancer at some point in our lifetime.

There was a range of fundraising activities throughout the day which consisted of:

- Cake-Off
- Raffle
- Wear What You Want Friday
- SLS 'Mug' Shots

Joshua Chapman, Marketing Director commented "Stephen Knott, the fund raiser from the John Van Geest Centre, wanted to pass on his thanks and wishes to everyone involved, as SLS managed to raise **£371.52**. It is primarily down to people fundraising and supporting the John Van Geest Centre that they can continue their ground breaking work on cancer research."

Well done and thank you to everyone who contributed.
