

8 October 2019

Dear Customer,

Laboratory Consumables & Chemicals IRLA (LAB4040 SU)

Exciting news from SLS.... we're proud to announce we've been awarded onto the new IRLA agreement for Chemicals and Consumables across ALL product categories as a Multi-Lot, (Lot 9) appointed supplier. This means that you can purchase all core and non-core items across the below lot listings via SLS fully compliantly.

- **Consumables – Research/Branded defined by Research Protocols**
- **Pipettes Sets**
- **Gloves**
- **Personal and Laboratory Protection Supplies**
- **Filtration Consumables**
- **Glass Consumables**
- **General Purpose Chemicals - Solvents Analytical Grade**
- **General Purpose Chemicals - Solvents other**
- **General Purpose Chemicals - Inorganic Chemicals**
- **General Purpose Chemicals - Biological Compounds**
- **Miscellaneous Consumables**

A key benefit is that SLS continue to offer the complete Sigma product range as an authorised distributor of their products. All Sigma orders sent to SLS will be fulfilled by stock held by Sigma in their warehousing facilities and delivered direct to you via their existing distribution network. This means no reduction in product availability or delivery times, just a gold standard logistics solution coupled with first class SLS customer service.

SLS utilizes the Sigma code as our own to make ordering even easier and competitive discounts have been applied across the Sigma range which compliments the wider portfolio of goods available from Scientific Laboratory Supplies.

Appointment on to the new agreement completes the range of other sector specific frameworks SLS are appointed to. This means that SLS can be your trusted first choice for all requirements from one off small chemical/consumable requirements to complex equipment projects and everything in-between, fully compliant with public procurement legislation.

Please don't hesitate to get in touch if you have any questions relating to this communication.

Kind regards
