

Material description: SODIUM ALGINATE

CAS No: 9005-38-3

<i>Supplied as:</i>	Product code	Description
	CHE3266	SODIUM ALGINATE 50g.
	CHE3268	SODIUM ALGINATE 100g.

## Specification

Parameter	Units	Minimum value	Maximum value	Typical value	Notes
pH; in solution	pH	6.0	8.0		
Viscosity	mPa.s	50	1300		

Revision date: 16/11/2011

Issue date: 12/05/2022

Specification correct at time of issue but is subject to change without notice. It is the users responsibility to verify the material is suitable for the required application.
