Material description: SODIUM ALGINATE

CAS No: 9005-38-3

| <i>Supplied as:</i> | Product code | Description |
|---------------------|--------------|-----------------------|
| | CHE3266 | SODIUM ALGINATE 50g. |
| | CHE3268 | SODIUM ALGINATE 100g. |

Specification

| Parameter | Units | Minimum value | Maximum value | Typical value | Notes |
|-----------------|-------|---------------|---------------|---------------|-------|
| pH; in solution | pH | 6.0 | 8.0 | | |
| Viscosity | mPa.s | 50 | 1300 | | |

Revision date: 16/11/2011

Issue date: 12/05/2022

Specification correct at time of issue but is subject to change without notice. It is the users responsibility to verify the material is suitable for the required application.
