

Material description: SODIUM HYDROXIDE 1.0M - For SLS with COC/COA
CAS No: 1310-73-2

Supplied as: Product code Description
CHE5132 SODIUM HYDROXIDE 1.0M - For SLS with COC/COA 5L.

Specification

Parameter	Units	Minimum value	Maximum value	Typical value	Notes
Strength	mol/L	0.999	1.001		
Lead	ppm		5.000		
Mercury	ppm		0.3000		

Revision date: 29/01/2020 Issue date: 12/05/2022

Specification correct at time of issue but is subject to change without notice. It is the users responsibility to verify the material is suitable for the required application.
